

# Summer @ the Lab

## Grades 9–12

July 2–August 3, 2018

The Jacob Burns Film Center (JBFC) is committed to inspiring the next generation of visual storytellers and engaged citizens through exciting experiences that actively foster collaboration and creativity. Founded in 2001, the JBFC shows hundreds of films each year in our five-screen art house theater and pioneers a unique hands-on approach to viewing and creating media. Teens have two great ways to participate in Summer @ the Lab: a daylong camp program and Summer Co-op.

### LAB CAMP

#### Entering Grades 9–10

How much fun and filmmaking can we pack into one week? Come and find out as you learn, make, and explore with a range of media in our state-of-the-art production spaces. Our experienced faculty lead small groups of 10, and we maintain a ratio of one adult to every five campers, assuring individual attention. All sessions are held at the Media Arts Lab with occasional visits to the JBFC Theater, just down the street.

#### WEFTV

This fantastic week will include conceiving, writing, and shooting a series of episodes designed for distribution on the Internet. Creators will use Adobe PremierePro, After Effects, and YouTube to build an interactive series.

#### EXPERIMENTAL EXPERIENCE

Students will break free of narrative constraints to expand their creative experience with cinematography, lighting, and editing. They'll create short films and sequences using ProTools, Adobe Premiere Pro, and After Effects.

#### ANIMATION

If you can imagine it, you can create it through cut paper and mixed-media stop-motion animation. Animators will use HD software DragonFrame, along with plenty of imagination and creative collaboration.
